

Student Cell Phone Use Policy

Lititz Christian desires to help educate students to become Godly and discerning users of modern technology. Therefore, the following cell phone policy has been enacted to assist students in achieving a discerning use of an important communication tool.

Students at LC must have their cell phones turned off and out of sight during the school day between the hours of 7:50 a.m. and 2:35 p.m. unless special allowance is granted through the main office.

Students using their cell phone without permission during school hours will be asked to take their phone to the school office. After the first offense, parents will be asked to retrieve the phone with a reminder of our current cell phone policy.

The second cell phone offense in a semester will result in a detention service for the student. Again, parents will be asked to retrieve the phone from the school office.

A third offense will result in the loss of cell phone privileges.
