

Technology Acceptable Use Policy

Introduction

Lititz Christian School is rich in technological resources. Some of the resources available to students include access to the internet and our networked computer system. Using these resources, students can explore thousands of online libraries, databases, and other information sources throughout the world.

It is Lititz Christian School's intention to provide a safe computer access environment in order to further the educational goals and objectives of our school. In this vain, we provide content filtering and firewalls to minimize the possibility of inappropriate web access. We realize, however, that students may find ways to access information that is improper for the school environment. Therefore, the purpose of this document is to clearly state the Lititz Christian School usage expectations and guidelines for all hardware and software technology.
